You have to remember that these situations are very hard for your clients too. So, be empathetic towards them and be polite.

Do not accept any food or drinks during your visits; carry your own water and food if necessary.

Avoid physical touch with any of the members or with any of their belongings.

Members should maintain an adequate distance of at least three feet or one meter among each other. If possible, discourage gathering of every member in the group.

Make sure that each member has washed their hands. You may ask them to collaborate on buying a bottle of hand wash or soap to be used during center meetings.

Also, use gloves while filling up the loan cards and receiving repayments in cash; in cases where digital payment option is available, encourage customers to adopt the digital channel for repayments.

If gloves are not available, make sure that you wash or sanitize your hand immediately after handling cash.
